

The background of the advertisement features a collection of Rational accessories. In the top left, there is a stainless steel mesh basket with a handle. Below it is a stainless steel tray. In the center, there is a black, circular, shallow pan with a handle. To the right, another stainless steel mesh basket is visible. At the bottom, there is a black plastic grid mat. The items are arranged on a light-colored surface, and the overall composition is clean and professional.

RATIONAL accessories.

Robust. Durable.
Tough.

Hot and fully loaded.

The accessories for the iCombi can withstand a lot.

It has to be robust enough to last every day and be able to work hard in the professional kitchen – only then will the grill and pizza tray, mobile oven rack, CombiFry and condensation hood earn the right to bear the name original RATIONAL accessories. Only then can you make full use of the outstanding performance of the iCombi Pro and of the iCombi Classic. Everything from pre-fried products, chicken, baked goods and grilled vegetables will be a complete success. Also the steak will have distinctive grill stripes. So you get the most out of your cooking system. You no longer need to stay behind and deal with stubborn dirt, unnecessary damage and overheated accessories.

➔ **Durable accessories.**

So that everything turns out as you imagined. Each and every time.

Grilling and frying.

Higher productivity, better results.

TriLax coating

The RATIONAL accessories coated with TriLax have excellent heat conductivity, they have been developed for grilling, frying, roasting and baking and can be used in temperatures up to 300 °C. The robust non-stick coating also supports browning.

1 Roasting and baking tray

The universal tray for fish, meat, poultry pieces, roast potatoes, baked goods, vegetables and much more. Juicy with a nice crust.

2 Grilling and roasting tray

For juicy grilled meat, fish or vegetables. With a grill side for a traditional grill pattern and a frying side with a rim around the edge for pan fried food. The ideal addition for your à la carte service.

3 Grill and pizza tray

For fresh or convenience pizza, quiches and flatbreads. Grilling side for vegetables, fish and meat.

4 Multibaker

Optimal portioning and consistent product sizes for fried eggs, omlettes, hash browns and tortillas.

5 Cross and stripe grill grate

With the classic grill stripes on the one side or the original American steakhouse pattern on the other. Extremely robust and durable. No preheating necessary.

6 CombiGrill griddle

For the preparation of large batches of grilled products. Preheating the grid is not necessary.

7 Loading grid

Ideal addition to the CombiGrill griddle. For thin grilled products such as minute steaks or grilled vegetables. Place the food to be cooked on the loading grid, place it on the hot CombiGrill griddle and later remove.

8 Roasting and baking pan

For classic pan dishes such as hash browns, tortillas, quiches, pancakes or small cakes such as tarte tatin. Griddled surface for fast heat input. With carrier tray for easy handling.

9 Granite-enamelled container

With fully contoured corners so no portion of any bake is lost. Thanks to the excellent heat conductivity, it is ideal for roasting, braising, pan-frying and baking. Almost indestructible.

1

3

5

2

4

6

7

Special applications.

Special accessories for special requirements.

1 2 Chicken and duck superspike

Significantly reduced cooking time thanks to standing arrangement of poultry and the associated chimney effect. For succulent breast meat and uniformly browned skin.

3 CombiFry

Large quantities of pre-fried products such as fish nuggets, chips and wedges with no added fat. Healthy and delicious.

4 Ribs rack

Optimal utilisation of the unit thanks to the vertical arrangement of the spare ribs with up to 3.5 kg per grill.

5 Grill and tandoori skewer

With round, square or rectangular cross-sections in different diameters for meat, fish, poultry or vegetables.

6 Potato baker

Cook baked potatoes or corn on the cob without aluminium foil and up to 50 %* faster.

7 Lamb and suckling pig spit

Easily prepare entire lambs or suckling pigs of up to 30 kg.

* Compared to conventional kitchen technology.

Baking.

This is quality craftsmanship.

❶ Muffin and timbale mould

Made from highly flexible material and has optimal non-stick properties for muffins and desserts. 100 ml filling volume.

❷ Roasting and baking pan

Perfect for for small cakes like tarts tatin. The griddled base ensures fast heat input over the entire base. With special contoured carrier tray for easy handling.

❸ Roasting and baking tray

The universal genius for baking: Bread rolls, croissants, danish pastries and much more with uniform browning, crispy crusts and fluffy interior.

❹ Perforated baking tray

Ideal for bread, bread rolls, pretzels and for the production of all types of pre-baked products.

❺ Granite-enamelled container

The corners of the containers are fully contoured so that no portions of cakes are lost. Excellent heat conductivity for uniform browning and light and airy tray bakes.

❻ Mobile oven rack in bakery standard

A mobile oven rack replaces one hinging rack. For quick loading and unloading, made from high-grade stainless steel for high quality requirements and perfectly tailored to RATIONAL units.

❼ Bakery standard hinging rack

Thanks to the L-shaped racks, the hinging racks can easily be loaded with baking trays. The larger rail distance means the total capacity of the RATIONAL unit can also be used for higher baked goods. Made from high-grade stainless steel for top quality requirements.

GN accessories.

Better by default.

① Perforated container

Versatile, robust and durable accessory for steaming vegetables or for your buffet. Maximum perforation means the food is evenly steamed, and retains its colours and nutrients.

② Containers

The material thickness of stainless steel RATIONAL containers is 33 % above the standard. This guarantees maximum stability even for large quantities, long service life and convenient handling without any sharp edges.

③ Grid

Ideal for cooking large roasts. Made from extremely stable and durable stainless steel.

Extras.

Even more possibilities.

① VarioSmoker

Spicy smoked aromas without a smoking oven, directly from the iCombi Pro. The VarioSmoker gives meat, fish and vegetables a natural smoky flavour, the intensity of which you can adjust and vary to your taste. Even low temperature cooking is not a problem.

② Externally attachable core probes

A special extra thin sous-vide core probe ensures that the core temperature of the product is achieved precisely without destroying the vacuum in the bag. The externally mounted core temperature probe can be used as a replacement option for the internal core temperature probe.

Finishing.

Consistent separation of production and output.

❶ System for banqueting

20, 100 or several thousands of meals – with Finishing food is perfectly prepared without the stress, hectic rush or labour cost. Simply plate the appropriate number of plates cold and store them chilled in the mobile plate rack. The plates are then finished simultaneously using the Finishing process shortly before service. The Finishing system includes all accessories needed to start immediately (mobile plate rack, Thermocover, transport trolley).

❷ Mobile plate racks

Made from high-grade stainless steel and perfectly tailored to the units. For fast loading and unloading for up to 120 plated plates in the iCombi Pro 20-2/1 (up to 31 cm diameter).

❸ Thermocover

From special insulating materials to keep food hot for up to 20 minutes after Finishing. Easy to open and close with the simple magnetic seal. It is also easy to clean and store.

❹ Run-in rail

For quick, ergonomic loading and unloading of mobile oven racks or mobile plate racks. Required for tabletop units Model 6-1/1, 6-2/1, 10-1/1 and 10-2/1.

❺ Transport trolley

Simple loading and unloading of the mobile oven rack in tabletop units. Safely transport food thanks to the large, quiet and hygienic tandem castors. Tailored to the height of the stand. Height-adjustable version for worktops.

❻ Transport trolley for Combi-Duo

Safely load and unload both units in a single operation. A separate run-in rail for Combi-Duo is required.

Combi-Duo.

Double the power.

1 Combi-Duo

Two units, easily combined. When there is little available space but you still need to steam and grill at the same time and the workload is the same, Combi-Duo provides two units which you can choose to control from the top unit. For more convenience. For more flexibility.

2 Integrated fat drain kit for Combi-Duo

Reliably collects dripping fat in the cooking cabinets and drains it into drip trays. Different versions available depending on the setup variation.

3 Setup variations for Combi-Duo

The levelling kit and the stands are made from high-grade stainless steel for stable and correct setup.

The setup variations:

- › Levelling kit to compensate for uneven floors: Low version
- › Mobile kit with rollers for easy cleaning and low rack height, requires a floor drain.
- › Setup with stand I or II for Combi-Duo with feet. No floor drain necessary.
- › Mobile setup with Stand I or II for Combi-Duo with castors and parking brakes.

Stands.

Stable. Space-saving. Practical.

4 Levelling kit and stands

For the stable and balanced setup of your RATIONAL unit, we provide stands made from high-grade stable stainless steel in various versions: open, closed on the side or fully closed stands with doors. Support rails help store cooking accessories to save space. Mobile variations with stable castors and parking brakes enable the flexible positioning of the unit in the kitchen. All stands are designed in accordance with the applicable hygiene regulations.

Setup variations.

Convenient and practical.

❶ Installation kit for iCombi Pro XS and CombiMaster Plus XS

The appearance also counts – so you can also integrate the small cooking system with an installation kit in your front of shop area. Space for a hood is already provided so you can install an UltraVent or UltraVent Plus as needed. This is supplied with a trim kit included to prevent the accumulation of dirt in less accessible areas.

❷ MobilityLine floor cooking system (Model 20-1/1, 20-2/1)

A special frame with four robust castors and parking brakes, on which the floor unit is mounted, allows effortless mobility.

❸ MobilityLine tabletop unit (Model 6-1/1 – 10-2/1)

The tabletop unit is firmly screwed to Stand II MobilityLine. Side bars protect the unit and together with the large stable castors, they facilitate mobility.

Exhaust air technology.

For a good work climate.

All extraction and condensation hoods

- › Have a timeless modern design
- › Have an easy to clean front with a removable cover
- › Adjust the extraction capacity with intelligent infinitely variable control of the fan depending on the situation, such as when opening the door. Installation is simple, and the system can be retrofitted at a later time, too.

❶ UltraVent

With its condensation technology, the UltraVent absorbs steam and vapours. No connection to the outside or extension of an existing exhaust system is necessary with this air recirculation hood.

❷ UltraVent Plus

In addition to the UltraVent's condensation technology, the UltraVent Plus is equipped with special filter technology. This not only condenses vapours, but also reduces unpleasant fumes, for example when grilling and frying. RATIONAL units can be installed even in critical locations such as at the front of the store.

❸ Extraction hood

Steam and vapours are automatically extracted from the cooking cabinet and when opening the cooking cabinet door (without condensation technology). An external connection is required.

Installation accessories.

An answer to every challenge.

❶ Trolley levelling device

The trolley levelling device compensates for inclinations (up to 3 %) in the kitchen floor ensuring that the mobile oven rack can be rolled smoothly into the RATIONAL unit.

❷ Unit and mobile oven rack raiser

The ground clearance is increased by 70 mm. The mobile oven rack must be adjusted to the unit height accordingly.

❸ Heat shield for right and left side panel

Retrofitting a heat shield allows you to place a radiant heat source (e.g. grill) near the right or left side panel.

❹ Flow guard (for gas units only)

Used to extract exhaust gases through a pipe (diameter of exhaust gas pipe 180 mm).

❺ Handle holder for mobile oven rack

Provides a fixed storage location for the mobile oven rack handle, so that it is always within easy reach (included with delivery of floor units).

❻ Unit connection kit

Consisting of a water inflow hose (2 m) and waste water pipes DN 50.

❼ Condensation breaker

Accelerates the expulsion of steam and other vapours from the vent pipe. Steam and vapours can thus be diverted through a pipe into an extraction system.

❽ Wall mounting

For space-saving wall mounting. The attachment and mounting material (not included) must be designed in consultation with an architect/structural engineer and the building owner.

Care products.

Hygienically clean.

1 Active Green cleaner tab (for iCombi Pro and iCombi Classic)

Keeps both the unit and the environment clean: The cleaner tab with its new formula is phosphate and phosphorous-free and reduces the quantity of cleaner by up to 50 %*. Without compromising on cleaning power and hygiene. Can perform an ultra-fast interim clean of the iCombi Pro in approx. 12 minutes

2 Cleaner tab (for all SelfCookingCenter and CombiMaster Plus units)

Highly-concentrated and economical cleaner tabs with an intensive combination of active ingredients for high-performance cleaning power.

3 Care tab (for iCombi Pro, iCombi Classic and SelfCookingCenter units with Efficient CareControl)

Care substances actively protect against limescale in the steam generator and in the cooking cabinet before it even forms and extend the lifetime of the unit. Operational reliability without a water softener and time-consuming descaling.

4 Rinse aid tab (for SelfCookingCenter units without Efficient CareControl and CombiMaster Plus)

Active protection and extended lifetime thanks to high-efficiency care substances. Your cooking cabinet will be left gleaming with hygienic cleanliness.

5 Defoamer tab (for all iCombi Pro, iCombi Classic, SelfCookingCenter and CombiMaster Plus units)

Reduce foam when using heavily foaming water.

6 Grill cleaner (for all CombiMaster and ClimaPlus Combi units)

Liquid cleaner for hygienic cleanliness and care.

7 Special cleaner soft (for all CombiMaster and ClimaPlus Combi units)

For dirt resulting from cooking applications < 200 °C, non-corrosive.

8 Rinsing chemical, liquid (for ClimaPlus Combi with CleanJet)

9 Descaler (for SelfCookingCenter without Efficient CareControl, CombiMaster, ClimaPlus Combi)

For effective descaling of the steam generator with special care products.

10 Handheld pressure sprayer

Made of sturdy plastic, robust and easy to handle. The built-in pump mechanism generates the overpressure so that you can spray the areas to be cleaned at the push of a button with liquid cleaner or rinsing chemical.

* Compared to the previous Model.

Practical. Robust. Indispensable.
The right ingredients
for the success of your
iVario.

Efficiency and simplicity, creativity and variety, quality and quantity – iVario accessories must be able to do a lot and withstand a lot. This applies to the boiling and deep-frying baskets as well as to the rack, to the VarioMobil as well as to the scoops. Only those meeting these high standards earn the right to be called original RATIONAL accessories. So you can be sure you will get the cooking results you want and that pasta, low temperature cooking and casseroles are a real success. Giving the cleaning kit as little to do as possible.

- ➔ **The recipe**
Professional accessories that make working in the kitchen easier and produce quality results.

1

3

5

2

4

6

7

The basis for everything.

So you can work quicker, efficiently and more ergonomically.

1 Scraper

To facilitate simple and ergonomic turning and removal of products. Stability and light weight thanks to sophisticated design.

2 Scoops

For safe and easy emptying or portioning of large quantities of cooked food. Shock-resistant, scratch-resistant and temperature-resistant up to 250 °C. Perforated and unperforated.

3 Stir spatula

For stirring and mixing large quantities of food in the iVario Pro L and XL.

4 Boiling and deep-frying basket

The baskets are hooked on the arm of the automatic lifting and lowering mechanism, then loaded. At the end of the cooking process, the basket is automatically lifted out of the cooking liquid and the product can be removed effortlessly. Also suitable for small products such as rice. Water can be used multiple times, as nothing needs to be tilted.

5 Arm for automatic raising and lowering

The arm for the AutoLift lifting and lowering mechanism is placed on the lid. For up to three large boiling and deep-frying baskets. AutoLift lift the products out of the cooking liquid. Pinpoint cooking of boiled, deep-fried or poached products.

6 Colander

Holds back loose cooked products when you drain off liquids. Place the colander on the front side of the pan and the liquid can flow off through the integrated pan valve or be collected by tilting the pan.

7 Rack

To prevent direct contact between the food to be cooked and the pan base, e.g. for low temperature cooking, the rack is placed on the pan base, and the food on top.

Special applications.

The great art of boiling.

1 Portion basket kit

Kit with punched or unpunched 1/6 GN portion baskets including lids (for unpunched baskets only) and a frame. The frame can carry 1/3, 1/6 and 1/9 GN containers. Best used for boiling, deep-frying and keeping smaller quantities warm in restaurants, hotels and in service areas. Place the frame directly on the edge of the pan. The lid prevents the products from cooling and forming skin.

2 Spaetzle colander

Pan insert for optimal and ergonomic production of pasta, tailored precisely to the pan. Work height relieves pressure on the back.

Transport.

Go from A to B effortlessly. And back again.

1 VarioMobil

To effortlessly and safely empty and transport cooked food in 1/1 or 2/1 GN containers. The handle is hinged so that the VarioMobil can be stored easily. Adjustable height in 4 positions.

2 Basket cart

To easily and safely store, transport and drain standard GN containers or up to three boiling or deep-frying baskets.

3 Oil cart

To fill and empty the pan, and to store and filter oil. Melt cooking fat or heat cooled oil before filling the pan. Can be used to carry hot fat.

1

Setup.

Perfectly adjustable.

1 Stand

iVario 2-XS and iVario Pro 2-S can be installed directly onto a stand. With integrated pull-out shelves to place containers and to easily empty the pan. With support rails to store GN containers and accessories. Can be set up flush to the wall, side walls and top closed, rear side open. Various setup variations with feet, stainless steel feet, castors or for plinth installation.

1

2

3

4

5

6

Installation.

More space. Greater security.

1 Wall attachment kit

To make it easier to clean underneath the iVario Pro L and XL, it can be mounted on the wall. The position of the wall mounting can be chosen freely and can be adjusted to the physical size of the user.

2 Panelling for substructure

Veneers the rear area of the substructure and covers the cable and waste water installation for easier cleaning. Optional extra.

3 Storage space for substructure

To make efficient use of the space under the iVario Pro L and XL. Consists of up to nine pairs of support rails, side panels, closed on the top and rear. Optional extra.

4 Unit connection kit for drain water

Consists of waste water pipes DN 40 or DN 50.

5 Kit for floor fastening

Fix the unit to the floor for better work safety with the iVario Pro L and XL.

6 Unit attachment kit

To fix the iVario 2-XS or iVario Pro 2-S to an existing worktop or the stand. For secure horizontal and vertical mounting.

2

3

4

5

Care products.

Sparkling clean. Hygienic.

1 Cleaning arm, incl. 4 pads

Helps clean difficult to reach external areas between the pan and the operating console in the iVario 2-XS and the iVario Pro 2-S. The kit comprises one cleaning arm and four cleaning pads in two degrees of hardness.

2 Hard cleaning pads

Reorder for the cleaning arm for external cleaning. For stubborn dirt. Does not scratch the external panelling.

3 Soft cleaning pads

Reorder for the cleaning arm for external cleaning. For easy to remove dirt.

4 Cleaning sponge

For effective and fast cleaning of the pan. For all unit sizes.

Integrated hand shower is an option.

ConnectedCooking. All under control.

➔ **ConnectedCooking**
Powerful networking by RATIONAL. Always keeps everything under control.

[rational-online.com/xx/
ConnectedCooking](http://rational-online.com/xx/ConnectedCooking)

Networking is moving forward – it all runs digitally, and it is all synchronised. Just like ConnectedCooking by RATIONAL. Recipe transfer, unit control, hygiene data, software updates and service remote access with the secure networking solution you can control everything from your desk. For all connected appliances. You can also access and save HACCP data from all appliances. Recipes travel at the touch of a button to the cooking systems. All you need is a PC, smartphone or tablet. Networking does not get easier than that.

RATIONAL accessories. Robust. Durable. Tough.
